

# Planeth flight control Interface

This is a visual representation of the Planethary information and voting page as seen by the player. The control interface is inspired from SpaceX dragon's crew interface. The template is modified on top of work done by [twitter.com/HckmstrRahul](https://twitter.com/HckmstrRahul). We thank the author for their open source work.

Feel free to share or duplicate it for personal projects. Any attribution is always appreciated. This work is part of the submission for the Gitcoin ETHCC hackathon.
